FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Kristi Cacciatore
DOCKET NO.: 05-25081.001-R-1
PARCEL NO.: 15-03-213-018-0000

The parties of record before the Property Tax Appeal Board are Kristi Cacciatore, the appellant(s), by attorney Michael Griffin of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 4,103
IMPR.:	$ 24,739
TOTAL:	$ 28,842

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 49-year-old, two-story, single-family dwelling of frame and masonry construction containing 1,918 square feet of living area and located in Proviso Township, Cook County. Features of the residence include two and one-half bathrooms, a partial-finished basement, central air-conditioning and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, 49-year-old, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,827 to 1,955 square feet of

living area. The comparables contain one and one-half or two and one-half bathrooms, a partial-finished or unfinished basement and a one-car or two-car attached garage. Two comparables have central air-conditioning. The improvement assessments range from $10.64 to $11.84 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $28,842. The subject's improvement assessment is $24,739 or $12.90 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 49-year-old, single-family dwellings of frame and masonry construction located within the same survey block as the subject. The improvements range in size from 1,912 to 1,918 square feet of living area. The comparables contain two and one-half bathrooms, a partial-finished basement, central air-conditioning and a two-car attached garage. The improvement assessments range from $12.88 to $12.90 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The Board finds these seven properties similar to the subject in size, amenities, age, exterior construction and location and they have improvement assessments ranging from $10.64 to $12.90 per square foot of living area. The subject's per square foot improvement assessment of $12.90 falls within the range established by these properties. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
