PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Shaffer
DOCKET NO.: 04-25348.001-R-1
PARCEL NO.: 06-21-209-015-0000

The parties of record before the Property Tax Appeal Board are Shaffer, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 12-year old, two-story dwelling of frame construction containing 1,855 square feet of living area with a partial unfinished basement, central air conditioning, a fireplace and a two-car attached garage.

The appellant contends unequal treatment in the assessment process as the basis of the appeal. In support of this argument the appellant submitted information on four comparable properties described as two-story frame or frame and masonry dwellings that are either 9 or 13 years old for consideration. The comparables ranged in size from 1,856 to 1,946 square feet of living area. Each comparable has a basement and central air conditioning. Three of the comparables have a fireplace. Copies of photographs depict each comparable as having a two-car attached garage. A map submitted by the appellant depicts the comparables being located approximately 1/3 to 1 mile from the subject. These properties have improvement assessments ranging from $7.01 to $8.65 per square foot of living area. The subject's improvement assessment is $10.80 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that are 12 years old. The dwellings range in size from 1,844 to 1,918 square feet of living area. Three of the comparables have full unfinished basements, each comparable has central air conditioning, two comparables have fireplaces, and each comparable has a two-car garage. The property index

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$	5,609
IMPR.:	$	20,033
TOTAL:	$	25,642

Subject only to the State multiplier as applicable.

numbers indicate these properties are located in close proximity to the subject. The board of review indicated that one comparable was located within the same block as the subject and three were located two blocks from the subject. These properties have improvement assessments ranging from $10.73 to $11.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, age, and size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $10.73 to $11.54 per square foot of living area. The subject's improvement assessment of $10.80 per square foot of living area is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
