FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Aidan Dunican
DOCKET NO.: 06-23857.001-R-1
PARCEL NO.: 14-16-302-018-0000

The parties of record before the Property Tax Appeal Board are Aidan Dunican, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$40,389
IMPR.:	$88,225
TOTAL:	$128,614

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 13,300 square foot parcel of land improved with a 98-year old, three-story, masonry, multi-family dwelling containing 3,001 square feet of living area, six baths, and a full, unfinished basement. The appellant argued that the subject property is not equitably assessed as the basis of the appeal.

In support of the equity argument, appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within three blocks of the subject. The properties are described as two or three-story, masonry, multi-family dwellings with between two and five and one-half baths and a partial or full basement with one finished. The properties range: in age from 87 to 113 years; in size from 3,932 to 5,421 square feet of living area; and in improvement assessment from $10.77 to $13.69 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of $88,225 or $29.40 per square foot of living area was disclosed. In support of the assessment, the board of review presented descriptions and assessment information on a one property suggested as comparable and located within the subject's neighborhood. The property is described as three-story, masonry, multi-family dwelling with three baths and a full, unfinished basement. The property is 98 years old, contains 2,100 square feet of living area, and has improvement assessments of $34.13 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

Both parties presented a total of five suggested comparables. The PTAB finds the appellant's comparables #1, #2 and #3 and the board of review's comparable are the most similar to the subject in exterior construction, size, and age. These comparables received the greatest weight in the Board's analysis. The properties are two or three-story, masonry, multi-family dwellings located within the subject's neighborhood. The properties range: in age from 93 to 113 years; in size from 2,100 to 4,404 square feet of living area; and in improvement assessments from $10.77 to $34.13 per square foot of living area. In comparison, the subject's improvement assessment of $29.40 per square foot of living area is within the range created by these comparables. The remaining comparable was given less weight due to disparities in size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
