ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Louis Felice
DOCKET NO.: 05-21479.001-R-1
PARCEL NO.: 23-27-412-029-0000

The parties of record before the Property Tax Appeal Board are Louis Felice, the appellant(s), by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 12,878
IMPR.:	$ 32,938
TOTAL:	$ 45,816

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 30-year-old, multi-level, single-family dwelling of masonry construction containing 1,831 square feet of living area and located in Palos Township, Cook County. Features of the residence include two full bathrooms, a partial-finished basement, central air-conditioning, a fireplace and a two and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of multi-level, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,756 to 3,415 square feet of living area and

range in age from 21 to 46 years. The comparables contain two or two and one-half bathrooms, a partial-finished basement, one or two fireplaces and a two-car or three-car attached garage. Two comparables contain central air-conditioning. The improvement assessments range from $10.45 to $15.55 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $45,816. The subject's improvement assessment is $32,938 or $17.99 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,335 to 1,944 square feet of living area and range in age from 23 to 39 years. The comparables contain one and one-half, two or two and one-half bathrooms, a partial-finished basement, one or two fireplaces and a two-car garage. Two comparables contain central air-conditioning. The improvement assessments range from $18.54 to $22.36 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one and three to be the most similar properties to the subject in the record. These two properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments of $18.54 and $22.36 per square foot of living area. The subject's improvement assessment of $17.99 per square foot of living area is below these properties. The remaining comparables are accorded less weight because they differ from the subject in improvement size and/or age. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
