FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Mark Staublin
DOCKET NO.: 06-23891.001-R-1
PARCEL NO.: 14-20-310-013-0000

The parties of record before the Property Tax Appeal Board are Mark Staublin, the appellant, by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$16,141
IMPR.:	$54,843
TOTAL:	$70,984

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story class 2-11 multi-family dwelling of masonry construction containing 2,576 square feet of living area. The dwelling is 110 years old and features a full, finished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2-story masonry or frame class 2-11 multi-family dwellings. The buildings range in size from 2,650 to 3,029 square feet of living area and are either 98 or 108 years old. All comparables feature full basements, one of which is finished. One has central air conditioning and one has 2 fireplaces. Two have 2 or 2½-car garages. The comparables have improvement assessments ranging from $14.66 to $18.15 per square foot of living area. The subject's improvement assessment is $21.29 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story

masonry class 2-11 multi-family dwellings either 98 or 103 years old. The dwellings range in size from 2,280 to 2,556 square feet of living area. All comparables feature full, unfinished basements. Three have 1 or 2-car garages. These properties have improvement assessments ranging from $23.94 to $26.95 per square foot of living area. The board of review erroneously used the assessor's improvement assessment of $64,546 rather than the board of review's final improvement assessment of $54,843 resulting in an incorrect improvement assessment calculation of $25.06 per square foot of living area. The subject actually has an improvement assessment of $21.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparable #1 submitted by the appellant was significantly larger than the subject and frame construction. Therefore, this comparable received less weight in the Board's analysis. The Board finds comparables #2 and #3 submitted by the appellant and all four comparables submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $14.66 to $26.95 per square foot of living area. The subject's improvement assessment of $21.29 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

The Board acknowledges that the appellant submitted income information about the subject, but did not submit income data on any comparables to support the subject's actual income is reflective of the market. Moreover, the appellant did not formulate a value conclusion under this approach using an independent real estate valuation expert.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
