FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: John Kelly
DOCKET NO.: 06-29662.001-R-1
PARCEL NO.: 17-05-413-011-0000

The parties of record before the Property Tax Appeal Board are John Kelly, the appellant, by attorney George Michael Keane, Jr., of Keane and Keane in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$9,024
IMPR.:	$87,319
TOTAL:	$96,343

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 3-story dwelling of masonry construction containing 3,652 square feet of living area. The dwelling is 7 years old. Features of the home include a partial, unfinished basement, central air conditioning and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process regarding both the land and improvement assessments. The appellant submitted information on three comparable properties described as 2 or 3-story masonry or frame and masonry dwellings that range in age from 1 to 7 years old. The comparable dwellings range in size from 3,924 to 4,379 square feet of living area. One comparable has a full, finished basement; one has a partial, unfinished basement; and one is on a slab foundation. All comparables have central air conditioning and fireplaces. Two have 2 or 3-car garages. The comparables have improvement assessments ranging from $15.07 to $15.29 per square foot of living area, and land assessments ranging from $1.52 to $4.20 per square foot. The subject's improvement assessment is $23.91 per square foot of living area and the land assessment is $3.76 per square foot. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 3-story masonry dwellings that range in age from 4 to 13 years old. The dwellings range in size from 2,796 to 3,736 square feet of living area. One comparable has a full, finished basement and three have slab foundations. All four comparables have central air conditioning and multi-car garages. Three comparables have fireplaces. These properties have improvement assessments ranging from $13.69 to $27.54 per square foot of living area, and land assessments ranging from $1.64 to $4.20 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

One of the appellant's comparables did not match the subject's style or exterior construction, and therefore was given less weight in the Board's analysis. The Board finds comparables #1 and #2 submitted by the appellant and all four comparables submitted by the board of review were most similar to the subject in location, size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $13.69 to $27.54 per square foot of living area. The subject's improvement assessment of $23.91 per square foot of living area is within the range established by the most similar comparables. These comparables had land assessments that ranged from $1.64 to $4.20 per square foot. The subject's land assessment of $3.76 per square foot is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's improvement assessment is not warranted. Furthermore, the Board finds the subject's land assessment is equitable and a reduction in the subject's land assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
