FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: John Roberson
DOCKET NO.: 05-24331.001-R-1
PARCEL NO.: 15-03-110-048-0000

The parties of record before the Property Tax Appeal Board (PTAB) are John Roberson, the appellant(s), by attorney Melissa K. Whitley, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 4,400
IMPR.:	$ 17,910
TOTAL:	$ 22,310

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,000 square foot parcel improved with a 52-year-old, one-story, single-family dwelling of masonry construction containing 1,149 square feet of living area and located in Proviso Township, Cook County. Features of the residence include one full bathroom, a full-unfinished basement and a one and one-half car detached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame, masonry or frame and masonry construction located within six blocks of the subject. The improvements range in size from 1,422 to 1,647 square feet of living area and range in age from 50 to 63 years old. The comparables contain one and one-half or two full bathrooms. One comparable has a full-unfinished basement, three comparables have

central air-conditioning, two comparables contain a fireplace and three comparables have a multi-car detached garage. The improvement assessments range from $10.44 to $12.04 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables two and four are the most similar to the subject. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $22,310. The subject's improvement assessment is $17,910 or $15.59 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, 51 or 52-year-old, single-family dwellings of masonry construction located within the same survey block as the subject. The improvements range in size from 1,117 to 1,175 square feet of living area. The comparables contain one full bathroom and a one-car or two-car detached garage. Two comparables contain a full-finished or unfinished basement. The improvement assessments range from $15.71 to $16.45 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has not overcome this burden.

The PTAB finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from $15.71 to $16.45 per square foot of living area. The subject's per square foot improvement assessment of $15.59 falls below the range established by these properties. The PTAB finds the appellant's comparables less similar to the subject in improvement size, location and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
