FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Mack Moody
DOCKET NO.: 06-20528.001-R-1
PARCEL NO.: 16-20-227-004-0000

The parties of record before the Property Tax Appeal Board are Mack Moody, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 4,115
IMPR.:	$ 14,196
TOTAL:	$ 18,311

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1.5 to 1.9-story dwelling of masonry construction containing 1,898 square feet of living area. The dwelling is 83 years old. Features of the home include a full basement finished with a recreation room, central air conditioning and a two-car detached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant described the subject as being a one-story dwelling with 1,140 square feet of living area. The appellant submitted information on four comparable properties described as one-story masonry dwellings that range in age from 80 to 85 years old. The comparable dwellings range in size from 1,013 to 1,395 square feet of living area. Each comparable has an unfinished basement. The comparables have improvement assessments ranging from $8.28 to $8.70 per square foot of living area. The appellant indicated the subject's improvement assessment was $12.45 per square foot of living area based on having 1,140 square feet. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review described the subject as being a 1.5 to 1.9

story dwelling with 1,898 square feet of living area with an improvement assessment of $7.47 per square foot of living area. In support of this description the board of review submitted a copy of the subject's property characteristic printout. To demonstrate the subject was equitably assessed the board of review presented descriptions and assessment information on three comparable properties consisting of 1.5 to 1.9-story masonry dwellings that range in age from 74 to 82 years old. The dwellings range in size from 1,890 to 2,058 square feet of living area. Each comparable had a full basement with two being finished and each comparable had a two-car garage. These properties have improvement assessments ranging from $8.09 to $8.27 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Initially, the Board finds the board of review presented the best evidence of the subject's classification, style and size. Therefore, the Board finds the subject is a 1.5 to 1.9-story dwelling with 1,898 square feet of living area.

The Board finds the comparables submitted by the board of were most similar to the subject in style and size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $8.09 to $8.27 per square foot of living area. The subject's improvement assessment of $7.47 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
