FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Paul Kwon
DOCKET NO.: 06-23661.001-R-1
PARCEL NO.: 09-11-305-017-0000

The parties of record before the Property Tax Appeal Board are Paul Kwon, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 5,075
IMPR.:	$ 28,099
TOTAL:	$ 33,174

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,534 square feet of living area. The dwelling is 42 years old. Features of the home include a partial, finished basement, central air conditioning, a fireplace and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eight comparable properties described as one-story frame or masonry dwellings that range in age from 26 to 53 years old. The comparable dwellings range in size from 1,537 to 1,722 square feet of living area. Seven of the comparables have a full or partial basement, one of which is finished, five have central air conditioning, three have a fireplace and seven have a garage. The comparables have improvement assessments ranging from $11.71 to $17.27 per square foot of living area. The subject's improvement assessment is $18.32 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry or frame and masonry dwellings that range in age from 46 to 49 years old. The dwellings range in size from 1,249 to 1,632 square feet of living area. Three of the comparables have full or partial, unfinished basements, three have central air conditioning, two have a fireplace and each has a garage. These properties have improvement assessments ranging from $18.62 to $19.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The comparables submitted by both parties were similar to the subject in design, age, size and features. The appellant's comparables two through four and six through eight and the board of review's comparables one and four were most similar to the subject in exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from $13.37 to $18.63 per square foot. The subject's improvement assessment of $18.32 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
