FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Paul & Diane Scardino
DOCKET NO.: 07-20722.001-R-1
PARCEL NO.: 09-22-117-002-0000

The parties of record before the Property Tax Appeal Board are Paul & Diane Scardino, the appellants, by attorney Brian S. Maher, of Weis, DuBrock & Doody in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$11,737
IMPR.:	$84,801
TOTAL:	$96,538

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 3,766 square feet of living area. The dwelling is 3 years old. Features of the home include a full, finished basement, central air conditioning, 2 fireplaces and a 2-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as 2-story masonry or frame and masonry dwellings that range in age from 7 to 59 years old. The comparable dwellings range in size from 3,658 to 3,787 square feet of living area. Two comparables feature full, unfinished basements, and one is on a crawl-space foundation. All three comparables feature central air conditioning, 1 fireplace and 2-car garages. The comparables have improvement assessments ranging from $19.33 to $21.40 per square foot of living area. The subject's improvement assessment is $22.52 per square foot of living area[1]. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

[1] The "improvement assessment per square foot" calculations on the appellant's grid analysis are incorrect.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry dwellings that range in age from 1 to 4 years old. The dwellings range in size from 3,226 to 4,788 square feet of living area. All comparables feature full basements, two of which are finished. All have central air conditioning, 2 fireplaces and 2 or 3-car garages. These properties have improvement assessments ranging from $23.61 to $24.24 per square foot of living area[2]. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Comparables #1 and #3 submitted by the appellant and comparables #3 and #4 submitted by the board of review differed significantly from the subject in size, age and/or exterior construction. Therefore, these comparables received less weight in the Board's analysis. The Board finds comparable #2 submitted by the appellants and comparables #1 and #2 submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $21.40 to $24.05 per square foot of living area. The subject's improvement assessment of $22.52 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

[2] The improvement assessment for the board of review's comparable #1 is a partial assessment. The actual assessment would be $24.00 per square foot of living area based on the 2008 proposed assessment of $90,309.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
