FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Bruce DenUyl
DOCKET NO.: 07-21192.001-R-1
PARCEL NO.: 05-35-200-011-0000

The parties of record before the Property Tax Appeal Board are Bruce DenUyl, the appellant, by attorney Abby L. Strauss of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$32,524
IMPR.:	$124,500
TOTAL:	$157,024

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 3,591 square feet of living area. The dwelling is 73 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry dwellings that range in age from 68 to 89 years old. The comparable dwellings range in size from 3,341 to 3,980 square feet of living area. Two comparables have a full basement of which one basement is finished and one comparable has a partial finished basement. Each comparable has central air conditioning and a 2-car garage. One comparable has two fireplaces. Two comparables sold from October 2004 to June 2006 for $1,215,000 or $363.66 per square foot of living area, including land and $1,450,000 or $364.32 per square foot of living area, including land. The comparables have improvement assessments ranging from $27.24 to $30.30 per square foot of living area. The subject's improvement assessment is $34.67 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 65 to 80 years old. The dwellings range in size from 3,572 to 3,982 square feet of living area. Three comparables have a full basement of which one basement is finished with a recreation room. Each comparable has central air conditioning, two fireplaces and 2-car garages. One comparable sold in April 2004 for $2,925,000 or $798.31 per square foot of living area, including land. These properties have improvement assessments ranging from $35.00 to $37.55 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location, size, features and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $35.00 to $37.55 per square foot of living area. The subject's improvement assessment of $34.67 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
