FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: George Daratzis
DOCKET NO.: 07-21756.001-R-1
PARCEL NO.: 10-28-424-041-0000

The parties of record before the Property Tax Appeal Board are George Daratzis, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,658
IMPR.:	$ 35,286
TOTAL:	$ 43,944

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 1380 square feet of living area. The dwelling is 65 years old. Features of the home include a full, finished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry or frame and masonry dwellings that are 65 or 67 years old. The comparable dwellings range in size from 1628 to 1722 square feet of living area. Two have full, unfinished basements, two have central air conditioning, and two have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from $22.97 to $23.55 per square foot of living area. The subject's improvement assessment is $25.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

masonry dwellings that are 66 or 67 years old. The dwellings range in size from 1242 to 1364 square feet of living area. Features include full basements, two of which are finished. One has central air conditioning, two have fireplaces, and three have one-car or two-car garages. These properties have improvement assessments ranging from $25.46 to $28.07 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because they had living areas substantially larger than the subject. Also, comparable #2 was of a different exterior construction than the subject. The Board finds the comparables submitted by the board of review were more similar to the subject in size and were generally similar in other property characteristics. These comparables had improvement assessments that ranged from $25.46 to $28.07 per square foot of living area. The subject's improvement assessment of $25.57 per square foot of living area is near the bottom of the range established by these comparables and is lower than the $26.79 and $26.90 per square foot assessments of the board of review's comparables #3 and #4, which were most similar to the subject overall. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
