FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Earl & Merle Glass
DOCKET NO.: 07-22709.001-R-1
PARCEL NO.: 05-32-314-020-0000

The parties of record before the Property Tax Appeal Board are Earl & Merle Glass, the appellants, by attorney Michael Griffin in Chicago and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 14,174
IMPR.:	$ 32,312
TOTAL:	$ 46,486

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a multi-level dwelling of frame and masonry construction containing 1,348 square feet of living area. The dwelling is 51 years old, and it has a partial, finished basement, central air conditioning, and a two-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as multi-level masonry or frame and masonry dwellings that are either 49 or 51 years old. The comparables have the same assigned neighborhood code as the subject property, and, based on their parcel index numbers, they are located near the subject property. The comparable dwellings range in size from 1,274 to 1,888 square feet of living area. Each comparable has central air conditioning; one has a fireplace; and three have a two-car garage. However, the appellants did not provide any information on the dwellings' foundations. The comparables have improvement assessments ranging from $19.07 to $21.67 per square foot of living area. The subject's improvement assessment is $23.97 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of multi-level frame and masonry dwellings that range in age from 45 to 51 years old. The comparables have the same assigned neighborhood code as the subject, and two are located one-quarter mile from the subject. The dwellings range in size from 1,278 to 1,364 square feet of living area. Each dwelling has a finished basement, either full or partial; three have central air conditioning; and three comparables have a garage, from one to two and one-half car. These properties have improvement assessments ranging from $25.66 to $27.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of eight equity comparables. All of the comparables submitted by both parties were multi-level masonry or frame and masonry dwellings like the subject, and they were also similar to the subject in age and location. However, three of the appellant's comparables were much larger than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparable #4 and the comparables submitted by the board of review were most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $21.67 to $27.05 per square foot of living area. The subject's improvement assessment of $23.97 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
