FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Gary & Candice Kloppenstein
DOCKET NO.: 07-23000.001-R-1
PARCEL NO.: 11-07-122-025-0000

The parties of record before the Property Tax Appeal Board are Gary & Candice Kloppenstein, the appellants, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$21,865
IMPR.:	$94,910
TOTAL:	$116,775

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 3,201 square feet of living area. The dwelling is 87 years old. Features of the home include a partial, finished basement, 2 fireplaces and a 1-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as 2-story frame, masonry, or stucco dwellings that range in age from 98 to 118 years old. The comparable dwellings range in size from 3,018 to 3,439 square feet of living area. All comparables feature full basements, one of which is finished. All have fireplaces and 2 or 2½-car garages. One comparable features central air conditioning. The comparables have improvement assessments ranging from $22.52 to $25.70 per square foot of living area. The subject's improvement assessment is $29.65 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on two comparable properties consisting of 2-story masonry dwellings both 77 years old. The dwellings contain either 2,556 or 2,388 square feet of living area. Both comparables feature full, finished basements, fireplaces and 2-car garages. These properties have improvement assessments of $35.26 and $29.90 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Comparables #1, #2 and #3 submitted by the appellant differed significantly from the subject in age and exterior construction. Therefore, these comparables received less weight in the Board's analysis. Although both comparables submitted by the board of review were smaller than the subject, the Board finds comparable #4 submitted by the appellants and comparable #1 submitted by the board of review were most similar to the subject in style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $25.70 and $35.26 per square foot of living area. The subject's improvement assessment of $29.65 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
