FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Bryan Younge
DOCKET NO.: 06-25674.001-R-1
PARCEL NO.: 14-19-314-027-0000

The parties of record before the Property Tax Appeal Board are Bryan Younge, the appellant(s), by attorney Stephanie Park, of Stephanie Park, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 12,241
IMPR.:	$ 73,560
TOTAL:	$ 85,801

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,100 square foot parcel improved with a four-year-old, two-story, single-family dwelling of frame construction containing 2,572 square feet of living area and located in Lake View Township, Cook County. Features of the residence include three and one-half bathrooms, a full-finished basement, central air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame or masonry construction located within

the subject's neighborhood. The improvements range in size from 2,542 to 2,678 square feet of living area and range in age from three to eight years. The comparables contain two and one-half or three and one-half bathrooms, a finished or unfinished basement and air-conditioning. Two comparables have a fireplace and three comparables contain a two-car detached garage. The improvement assessments range from $25.17 to $28.61 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $92,500. The subject's improvement assessment is $80,259 or $31.20 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame construction located within 0.3 mile of the subject. The improvements range in size from 2,370 to 2,814 square feet of living area and range in age from four to seven years. The comparables contain two and one-half or three and one-half bathrooms, a full-finished basement, central air-conditioning, one or three fireplaces and a two-car detached garage. The improvement assessments range from $32.16 to $34.71 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from $25.17 to $28.61 per square foot of living area. The subject's per square foot improvement assessment of $31.20 falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in improvement size and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board

finds the subject's improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
