FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Douglas Cleary
DOCKET NO.: 07-23659.001-R-1
PARCEL NO.: 05-18-228-032-0000

The parties of record before the Property Tax Appeal Board are Douglas Cleary, the appellant, by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$28,802
IMPR.:	$91,421
TOTAL:	$120,223

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame and masonry construction containing 2,668 square feet of living area. The dwelling is 66 years old. Features of the home include a partial, finished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2-story masonry or frame dwellings that range in age from 84 to 94 years old. The comparable dwellings range in size from 2,456 to 2,730 square feet of living area. All comparables feature full or partial, unfinished basements. Two have 1 or 2-car garages. All three comparables feature fireplaces. The comparables have improvement assessments of $25.35 or $26.80 per square foot of living area. The subject's improvement assessment is $34.27 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story

frame and masonry dwellings that range in age from 67 to 86 years old. The dwellings range in size from 2,716 to 3,116 square feet of living area. All comparables feature full or partial basements, two of which are finished. All have 1 or 2 fireplaces and 1, 2 or 2½-car garages. Two comparables feature central air conditioning. These properties have improvement assessments ranging from $35.28 to $37.22 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The comparables submitted by the appellant were much older than the subject and featured exterior construction that differed from the subject. Comparables #3 and #4 submitted by the board of review were much larger and much older than the subject. Therefore, the Board finds comparables #1 and #2 submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $36.76 and $37.22 per square foot of living area. The subject's improvement assessment of $34.27 per square foot of living area is below these two most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
