FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Harold Francke
DOCKET NO.: 06-25731.001-R-1
PARCEL NO.: 05-20-312-004-0000

The parties of record before the Property Tax Appeal Board are Harold Francke, the appellant, by attorney Howard W. Melton, of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$44,771
IMPR.:	$165,924
TOTAL:	$210,695

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame construction containing 6,489 square feet of living area. The dwelling is 1 year old. Features of the home include a full, finished basement, central air conditioning, 2 fireplaces and a 2½-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story frame, masonry, or stucco dwellings that range in age from 7 to 118 years old. The comparable dwellings range in size from 5,482 to 8,074 square feet of living area. All comparables feature full or partial, unfinished basements, fireplaces and 2, 3, or 3½-car garages. Two have central air conditioning. The comparables have improvement assessments ranging from $18.20 to $21.36 per square foot of living area. The subject's improvement assessment is $25.57 per square foot of living area[1]. Based on this evidence,

[1] The appellant's improvement assessment of $25.57 per square foot of living area is correct. The board of review used the assessor's improvement assessment ($185,771) instead of the board of review's final improvement assessment ($165,924) resulting in an incorrect improvement assessment of $28.63 per square foot of living area.

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story frame dwellings that range in age from 7 to 79 years old. The dwellings range in size from 5,212 to 6,870 square feet of living area. Three of the comparables feature full or partial basements one of which is finished, and one comparable is on a slab foundation. All four comparables feature central air conditioning, multiple fireplaces, and 2, 3 or 3½-car garages. These properties have improvement assessments ranging from $26.00 to $30.21 per square foot of living area. The board of review also disclosed that comparable #3 was purchased in October 2004 for $2,350,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #2 and #3 submitted by the appellant differed in external construction from the subject, and therefore received less weight in the Board's analysis. Four of the remaining six 2-story frame structures were much older than the subject, and they too received less weight in the Board's analysis. The Board therefore finds comparables #1 and #4 submitted by the board of review were most similar to the subject in age, style, and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $27.51 and $29.31 per square foot of living area respectively. The subject's improvement assessment of $25.57 per square foot of living area is below the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
