APPELLANT: Siu Hung Mak
DOCKET NO.: 06-25761.001-R-1
PARCEL NO.: 05-32-309-023-0000

The parties of record before the Property Tax Appeal Board are Siu Hung Mak, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 10,640
IMPR.:	$ 23,560
TOTAL:	$ 34,200

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,228 square feet of living area. The dwelling is 51 years old. Features of the home include a full, unfinished basement, central air conditioning, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story masonry dwellings that range in age from 46 to 51 years old. The appellant's comparables all have the same neighborhood code as the subject, and three are located in the same block as the subject. The comparable dwellings range in size from 1,132 to 1,429 square feet of living area. Three comparables have finished basements, either partial or full, and one has a full, unfinished basement. Each comparable has central air conditioning and a garage, either one-car or two-car. One dwelling has a fireplace. The comparables have improvement assessments ranging from $9.21 to $17.67 per square foot of living area. The subject's improvement assessment is $19.19 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one-story masonry dwellings that range in age from 48 to 51 years old. The comparables are all located in the same block as the subject. The dwellings contain either 1,204 or 1,249 square feet of living area. Each comparable has central air conditioning and a two-car garage, and each dwelling has a full basement, one of which is finished. These properties have improvement assessments ranging from $20.06 to $20.81 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold for $342,000 in May 2003. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The comparable numbered four by the appellant was somewhat larger than the subject and received reduced weight in the Board's analysis. The Board finds that the remaining six comparables submitted by both parties were very similar to the subject in location, age, size, style, exterior construction, and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $9.21 to $20.81 per square foot of living area. The subject's improvement assessment of $19.19 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
