FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Anton & Manda Lukic
DOCKET NO.: 07-24432.001-R-1
PARCEL NO.: 12-02-217-022-0000

The parties of record before the Property Tax Appeal Board are Anton & Manda Lukic, the appellants, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 9,432
IMPR.:	$ 32,068
TOTAL:	$ 41,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a multi-level dwelling of masonry construction containing 1,317 square feet of living area. The dwelling is 51 years old, and it has a partial, finished basement and a two-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on four comparable properties described as multi-level masonry or frame and masonry dwellings that range in age from 36 to 55 years old. The comparable dwellings range in size from 1,463 to 1,725 square feet of living area. Each comparable has central air conditioning and a garage, and two dwellings have a fireplace. However, the appellants did not provide any information on the comparables' foundations. The comparables have improvement assessments ranging from $19.19 to $23.62 per square foot of living area. The subject's improvement assessment is $24.35 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of multi-level masonry dwellings that range in age from 49 to 52 years old. The dwellings range in size from 1,358 to 1,387 square feet of living area. Each comparable has a partial, finished basement and a garage; two dwellings have central air conditioning; and one dwelling has a fireplace. These properties have improvement assessments ranging from $29.31 to $29.65 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold in November 2004 for $415,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables were larger than the subject; two comparables differed in exterior construction; and three were newer than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in size, exterior construction, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $29.31 to $29.65 per square foot of living area. The subject's improvement assessment of $24.35 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
