FINAL ADMINISTRATIVE DECISION

APPELLANT: Bruce Weininger
DOCKET NO.: 06-26093.001-R-1
PARCEL NO.: 04-20-117-002-0000

The parties of record before the Property Tax Appeal Board are Bruce Weininger, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,400
IMPR.:	$ 56,032
TOTAL:	$ 64,432

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 3,135 square feet of living area. The dwelling is seven years old, and its features include a partial, unfinished basement, central air conditioning, a fireplace, and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame, masonry, or frame and masonry dwellings that are either ten or forty-one years old. The appellant's comparables all have the same neighborhood code as the subject, and one is located on the same block as the subject. The comparable dwellings range in size from 3,070 to 3,309 square feet of living area. Each comparable has an unfinished basement, either full or partial, central air conditioning, a fireplace, and a garage. The comparables have improvement assessments ranging from $16.00 to $17.17 per square foot of living area. The subject's improvement assessment is $17.87 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that are each seven years old. The comparables all have the same neighborhood code as the subject, and one is located in the same block as the subject. The dwellings range in size from 3,110 to 3,248 square feet of living area. Each comparable has a partial, unfinished basement, central air conditioning, a fireplace, and a garage. These properties have improvement assessments ranging from $18.43 to $19.39 per square foot of living area. The board of review's evidence also indicated that comparable numbered one sold for $848,000 in June 2006; comparable numbered two sold for $737,500 in December 2006; and that comparable numbered four sold for 707,000 in July 2004. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the eight comparables submitted by both parties were very similar to the subject in size, style, location, and foundation. However, the appellant's comparables numbered one and three differed from the subject in exterior construction, and comparable three also differed in age. As a result, these comparables received reduced weight in the Board's analysis. The Board finds the comparables numbered two and four by the appellant and the comparables submitted by the board of review were most similar to the subject in age and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $16.95 to $19.39 per square foot of living area. The subject's improvement assessment of $17.87 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
