FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Ellen Weisz
DOCKET NO.: 06-26703.001-R-1
PARCEL NO.: 13-19-425-017-0000

The parties of record before the Property Tax Appeal Board are Ellen Weisz, the appellant(s), by attorney Glenn S. Guttman, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,161
IMPR.:	$ 30,484
TOTAL:	$ 38,645

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,668 square foot parcel improved with an 89-year-old, one and one-half story, single-family dwelling of frame construction containing 1,408 square feet of living area and located in Jefferson Township, Cook County. Features of the residence include two and one-half bathrooms, a full-unfinished basement and a three-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on seven properties suggested as comparable to the subject. Based on the appellant's documents, the seven suggested comparables consist of one-story or one and one-half story, single-family dwellings of frame, masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,170 to 1,611 square feet of living area and range in age from 34 to 88 years.

The comparables contain one, one and one-half or two full bathrooms. Two comparables contain a full-finished or unfinished basement, one comparable has central air-conditioning, one comparable has a fireplace and six comparables have a one-car or two-car detached garage. The improvement assessments range from $16.58 to $20.67 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $38,645. The subject's improvement assessment is $30,484 or $21.65 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 1,219 to 1,496 square feet of living area and range in age from 90 to 98 years. The comparables contain two or two and one-half bathrooms, a full-finished or unfinished basement and a two-car detached garage. The improvement assessments range from $21.73 to $23.11 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from $21.73 to $22.92 per square foot of living area. The subject's per square foot improvement assessment of $21.65 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size, amenities and/or exterior construction and accorded less weight. The Board further finds the board's comparable three less similar to the subject in improvement size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
