FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Al Frapolli
DOCKET NO.: 07-25574.001-R-1
PARCEL NO.: 02-12-206-051-0000

The parties of record before the Property Tax Appeal Board are Al Frapolli, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 2,118
IMPR.:	$ 65,355
TOTAL:	$ 67,473

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,648 square foot parcel improved with a 27-year-old, three-story multi-family dwelling of masonry construction containing 5,670 square feet of living area with six full bathrooms. The subject is built on slab and located in Palatine Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of three-story, multi-family dwellings of masonry or frame and masonry construction located within one-half mile of the subject. One of the comparables is located on the same street as the subject. The improvements range in size from 5,832 to 6,372 square feet of living area and range in age from 26 to 28 years old. The comparables contain six full bathrooms. The improvement assessments range from $9.15 to $9.70 per square foot of living area.

The appellant also submitted the board of review's final decision letter for two properties located within two blocks of the subject which received reductions from the board of review. However, no descriptive data was provided for these properties. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $67,473. The subject's improvement assessment is $65,355 or $11.53 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with three-story, 27-year-old, 5,670 square foot, multi-family dwellings of masonry construction located within the same survey block as the subject. The comparables contain six full bathrooms. The improvement assessments range from $10.68 to $11.53 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and design. In addition, they are located within the same survey block as the subject and have improvement assessments ranging from $10.68 to $11.53 per square foot of living area. The subject's per square foot improvement assessment of $11.53 falls within the range established by these properties. The Board finds the appellant's three comparables differ from the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

Next, the appellant submitted the board of review's final decision letter for two properties located within two blocks of the subject which received reductions from the board of review. However, no descriptive data was provided for these properties.

Without adequate descriptions of the properties, the Board finds it is impossible to evaluate their comparability to the subject.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
