FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Priscilla MacDougall
DOCKET NO.: 07-26070.001-R-1
PARCEL NO.: 11-19-415-010-0000

The parties of record before the Property Tax Appeal Board are Priscilla MacDougall, the appellant, by attorney Howard W. Melton, of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$14,190
IMPR.:	$70,983
TOTAL:	$85,173

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame construction containing 2,868 square feet of living area. The dwelling is 84 years old. Features of the home include a full, finished basement and a 1½-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 1½ or 2-story frame or stucco dwellings that range in age from 104 to 129 years old. The comparable dwellings range in size from 2,009 to 2,872 square feet of living area. Three comparables feature full or partial, unfinished basements and one is on a slab foundation. One comparable has central air conditioning and three have fireplaces. All have 1, 1½, 2 or 3 car garages. The comparables have improvement assessments ranging from $18.23 to $22.65 per square foot of living area. The subject's improvement assessment is $24.75 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story frame dwellings that range in age from 106 to 119 years old. The dwellings range in size from 2,218 to 2,834 square feet of living area. All comparables feature full basements, one of which is finished. Two have fireplaces and three have 2, 2½ or 3-car garages. These properties have improvement assessments ranging from $26.11 to $27.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #2 and #3 submitted by the appellant were 1½-story dwellings. Appellant's comparable #1 was much older than the subject and on a slab foundation. Therefore, these three comparables received less weight in the Board's analysis. All four comparables submitted by the board of review were 2-story frame dwellings with features similar to the subject. Appellant's comparable #4 was stucco instead of frame but was similar to the subject in other areas. Therefore, the Board finds comparables #1 and #3 submitted by the board of review and comparable #4 submitted by the appellant were most similar to the subject in size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $22.65 to $27.04 per square foot of living area. The subject's improvement assessment of $24.75 per square foot of living area is within the range established by these most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
