FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Gregory Sztejkowski
DOCKET NO.: 06-30239.001-R-1
PARCEL NO.: 13-22-112-024-0000

The parties of record before the Property Tax Appeal Board are Gregory Sztejkowski, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 7,081
IMPR.:	$ 51,268
TOTAL:	$ 58,349

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story, multi-family dwelling of masonry construction containing 5,460 square feet of living area. The dwelling is 78 years old. Features of the home include six apartment units, a full, unfinished basement, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as masonry, multi-family dwellings that are either 81 or 82 years old. The appellant did not provide the number of stories for each comparable. The appellant's comparables are located between three and four blocks from the subject property. The comparable dwellings range in size from 7,804 to 9,330 square feet of living area. Two comparables have full, unfinished basements, and one has a full, finished basement with an apartment. Two comparables have garages. The comparables have improvement assessments ranging from $8.03 to $8.48 per square foot of living area. The subject's improvement assessment is $9.39 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two or three-story masonry, multi-family dwellings that range in age from 78 to 80 years old. Two of the comparables are located one-quarter mile from the subject, and the other one is located in the same general area as the subject. The dwellings range in size from 5,264 to 5,608 square feet of living area. Each comparable has a full, unfinished basement, and two dwellings have garages. These properties have improvement assessments ranging from $9.87 to $11.14 per square foot of living area. The board of review's evidence also indicated that comparable numbered two sold for $690,000 in August 2005. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of six equity comparables. All of the comparables submitted by both parties were very similar to the subject in age, location, exterior construction, foundation, and building use. However, the Board finds the comparables submitted by the board of review were the most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $9.87 to $11.14 per square foot of living area. The subject's improvement assessment of $9.39 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
