FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Danny Zoller
DOCKET NO.: 06-31000.001-R-1
PARCEL NO.: 14-32-134-014-0000

The parties of record before the Property Tax Appeal Board are Danny Zoller, the appellant, by attorney Arnold G. Siegel in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$20,874
IMPR.:	$163,376
TOTAL:	$184,250

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 3-story dwelling of masonry construction containing 4,742 square feet of living area. The dwelling is 118 years old. Features of the home include a full, finished basement, central air conditioning, 2 fireplaces and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as 2 or 3-story frame or masonry dwellings that range in age from 115 to 127 years old. The comparable dwellings range in size from 4,192 to 4,264 square feet of living area. Two of the comparables feature full, unfinished basements, and one is on a crawl foundation. Two have central air conditioning and one has a fireplace. All the comparables have 2 or 3-car garages. The comparables have improvement assessments ranging from $17.08 to $31.13 per square foot of living area. The subject's improvement assessment is $34.45 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on three comparable properties consisting of 3-story masonry dwellings that range in age from 103 to 118 years old. The dwellings range in size from 4,104 to 4,505 square feet of living area. All comparables feature full basements of which two are finished. All have central air conditioning and 1½ or 2-car garages. Two comparables have fireplaces. These properties have improvement assessments ranging from $38.90 to $47.03 per square foot of living area. The board of review further disclosed that the subject was purchased in June 2004 for $1,842,500 and comparable #2 was purchased in December 2005 for $2,650,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #1 and #2 submitted by the appellant were 2-story dwellings, and therefore were given less weight in the Board's analysis. Although all the remaining comparables submitted by both parties were similar to the subject in location, style, exterior construction and age, the Board finds comparables #1 and #2 submitted by the board of review were most similar to the subject in size and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $39.43 and $47.03 per square foot of living area respectively. The subject's improvement assessment of $34.45 per square foot of living area is below those comparables. The board further finds that the subject's assessment of $184,250 reflects a market value of $1,820,652 when applying the 2006 three year median level of assessments for Cook County Real Property Classification Ordinance class 2 property of 10.12% as determined by the Illinois Department of Revenue, which is less than the value reflected by the sales price. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
