**FINAL ADMINISTRATIVE DECISION**

DOCKET NO.: 06-31306.001-R-1
PARCEL NO.: 17-29-325-027-0000

| **LAND:** | $ 5,174 |

| **TOTAL:** | $ 32,978 |

Subject only to the State multiplier as applicable.

## ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 1,562 square feet of living area. The dwelling is 12 years old. Features of the home include a full, unfinished basement, central air conditioning and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument, the appellant submitted information on three comparable properties that were described as two-story dwellings of masonry construction. They range in age from seven to 23 years old. The comparable dwellings range in size from 1,694 to 1,980 square feet of living area. Two of the comparables have full or partial, unfinished basements and one has a crawl-space foundation. Each has central air conditioning and a two-car garage; one has a fireplace. The comparables have improvement assessments ranging from $17.10 to $17.37 per square foot of living area. The subject's improvement assessment is $17.80 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that are either seven or 17 years old. The dwellings contain either 1,674 or 1,705 square feet of living area. The comparables have full, unfinished basements, central air conditioning and a garage. These properties have improvement assessments of either $17.70 or $18.11 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable one and the board of review's comparables were most similar to the subject in size. They were also similar to the subject in design, exterior construction, age and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. The comparables had improvement assessments ranging from $17.10 to $18.11 per square foot of living area. The subject's improvement assessment of $17.80 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
