FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Jeff Rehkemper
DOCKET NO.: 07-29938.001-R-1
PARCEL NO.: 17-04-214-015-0000

The parties of record before the Property Tax Appeal Board are Jeff Rehkemper, the appellant(s), by attorney Stephanie Park, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$19,300
IMPR.:	$198,588
TOTAL:	$217,888

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,500 square foot parcel of land improved with a one-year old, three-story, frame, single-family dwelling containing 4,497 square feet of living area, three and one-half baths, air conditioning, a fireplace, and a full, unfinished basement. The appellant, via counsel, argued there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted information on a total of eight properties suggested as comparable. The properties are described as two or three-story, masonry, single-family dwellings. Features include between three and four and one-half baths, air conditioning, one or two fireplaces for seven properties, and, for all properties, a full basement with seven finished. The properties range: in age from one to eight years; in size from 3,962 to 4,715 square feet of living area; and in improvement assessments from $14.65 to $39.67 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of $198,588 or $44.16 per square foot of living area was disclosed. In support of the subject's assessment, the board of review submitted descriptions and assessment information on four properties suggested as comparable. The properties are described as three-story, masonry, single-family dwellings. Features include between three and one-half and four and two-half baths, air conditioning, a fireplace for three properties, and, for three properties, a partial or full finished basement. The properties range: in age from one to eight years; in size from 4,365 to 4,752 square feet of living area; and in improvement assessments from $39.67 to $47.64 per square foot of living area. The board of review's comparable #4 is also the appellant's comparable #4. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued that the appellant's suggested comparables were more similar to the subject than the board of review's suggested comparables. The board of review's representative submitted *Board of Review Exhibit D*, a printout of a Google map showing the proximity of all the suggested comparables to the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of 11 properties suggested as comparable. The PTAB finds the appellant's comparable #4 and the board of review's comparables most similar to the subject in size, design, construction, location, and/or age. The properties range: in age from one to eight years; in size from 4,365 to 4,752 square feet of living area; and in improvement assessments from $39.67 to $47.64 per square foot of living area. In comparison, the subject's improvement assessment of $44.16 per square foot of living area is within the range of these comparables. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
