|---|---|
| **LAND:** | $2,440 |
| **IMPR.:** | $9,450 |
| **TOTAL:** | $11,890 |

Subject only to the State multiplier as applicable.

## ANALYSIS

The subject property consists of a one and one-half-story frame dwelling containing 1,078 square feet of living area that was built in 1914. Features include a full unfinished basement.

The appellant presented no objection to a decision in this matter being rendered on the evidence submitted in the record. Therefore, the decision of the Property Tax Appeal Board contained herein shall be based upon the evidence contained in and made a part of this record.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this claim, the appellant submitted three comparable sales. Their proximity in relation to the subject was not disclosed other than one comparable was in the same neighborhood code as the subject. The comparables consist of one and one-half or two-story frame dwellings that were built from 1895 to 1930 and range in size from 960 to 1,170 square feet of living area. Features had varying degrees of similarity when compared to the

subject. The comparables sold from September 2006 to July 2007 for prices ranging from $18,000 to $23,500 or from $15.38 to $24.47 per square of living area including land. Based on this evidence, the appellant requested a reduction in the subject's assessment to $7,340 or a market value of approximately $22,020.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment of $11,890 was disclosed. The subject's assessment reflects an estimated market value of $35,792 or $33.20 per square foot of living area including land using Peoria County's 2007 three-year median level of assessments of 33.22%.

In support of the subject's assessment, the board of review submitted an analysis of three comparable sales and a map detailing their proximate location in relation to the subject. The comparables consist of one-story dwellings that were built from 1923 to 1925 and range in size from 756 to 984 square feet of living area. Features had varying degrees of similarity when compared to the subject. The comparables sold between March 2005 and August 2006 for prices ranging from $31,000 to $39,140 or from $35.88 to $51.77 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant submitted Multiple Listing Sheets for two of the comparable sales submitted by the board of review. The appellant argued the comparables differ in design from the subject and have garages not enjoyed by the subject. In addition, two of the comparables have updated features when compared to the subject. The appellant also argued it is unfair to compare owner occupied dwellings to a rental dwelling like the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds no reduction in the subject's assessment is warranted.

The appellant argued the subject property is overvalued. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill. App. 3d 179, 183, 728 N.E.2d 1256 (2nd Dist. 2000). After an analysis of the evidence, the Board finds the appellant has not overcome this burden.

The record contains six suggested comparable sales for the Board's consideration. The Property Tax Appeal Board finds appellant's comparables #2 and #3 and board of review comparable #1 were more similar to the subject in location, design, age, size, and/or features. They sold for prices ranging from $18,000 to $37,000 or from $15.38 to $37.60 per square foot of living area including land. The subject's assessment reflects an estimated market value of $35,792 or $33.20 per square foot of

living area including land. After considering adjustments to the comparables for any differences when compared to the subject, the Property Tax Appeal Board finds the subject's estimated market value as reflected by its assessment is supported and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
