FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Robert & Evelyn Allen
DOCKET NO.: 08-20639.001-R-1
PARCEL NO.: 15-01-113-045-0000

The parties of record before the Property Tax Appeal Board are Robert & Evelyn Allen, the appellants, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$14,480
IMPR.:	$43,520
TOTAL:	$58,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 1,640 square feet of living area. The dwelling is 66 years old. Features of the home include a full unfinished basement, a fireplace and a 2-car garage.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as 2-story stucco or masonry dwellings that range in age from 62 to 92 years old. The comparable dwellings contain either 1,522 or 1,941 square feet of living area. All comparables feature full unfinished basements, fireplaces and 2-car garages. One has central air conditioning. The comparables have improvement assessments ranging from $19.59 to $23.47 per square foot of living area. The subject's improvement assessment is $26.54 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry dwellings that range in age from 65 to 71 years old. The dwellings range in size from 1,650 to 1,800 square feet of living area. All comparables feature full basements, two of which are finished. All have fireplaces. Three have 1, 2 or 2½-car garages

and two have central air conditioning. These properties have improvement assessments ranging from $28.06 to $31.60 per square foot of living area. The board of review also disclosed that the subject was purchased in January 2006 for $580,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal the appellants re-submitted the original evidence plus an additional fourth comparable.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Initially, the Board finds it cannot consider the new comparable submitted as evidence by the appellants in rebuttal. Section 1910.66(c) of the Official Rules of the Property Tax Appeal Board states:

> Rebuttal evidence shall not consist of new evidence such as an appraisal or newly discovered comparable properties. A party to the appeal shall be precluded from submitting its own case in chief in guise of rebuttal evidence. (86 Ill.Adm.Code §1910.66(c)).

Comparables #2 and #3 submitted by the appellants were significantly larger than the subject. Comparable #2 was also stucco and significantly older than the subject. Comparables #1 and #2 submitted by the board of review featured finished basements. Therefore these four comparables received less weight in the Board's analysis. The Board finds comparable #1 submitted by the appellants and comparables #3 and #4 submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $23.47 to $29.44 per square foot of living area. The subject's improvement assessment of $26.54 per square foot of living area is within the range established by these most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
