FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: John Patience
DOCKET NO.: 08-21778.001-R-1
PARCEL NO.: 05-29-202-030-0000

The parties of record before the Property Tax Appeal Board are John Patience, the appellant, by attorney Howard W. Melton of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$112,848
IMPR.:	$267,843
TOTAL:	$380,691

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of stucco construction containing 7,239 square feet of living area. The dwelling is 85 years old. Features of the home include a partial basement finished with a recreation room, central air conditioning, three fireplaces and a 3-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry dwellings that range in age from 52 to 91 years old. The comparable dwellings range in size from 6,246 to 8,472 square feet of living area. Two comparables have partial basements finished with a recreation room. One comparable has a full unfinished basement and one comparable has a partial unfinished basement. Two comparables have central air conditioning. One comparable has three fireplaces, two comparables have two fireplaces, and one comparable has a single fireplace. Two comparables have a 4-car garage, one comparable has a 3-car garage and one comparable has a 2-car garage. The comparables have improvement assessments ranging from $28.85 to $36.82 per square foot of living area. The subject's improvement assessment is $37.00 per square foot of living area. The appellant also

submitted information on six comparable sales, however, these comparables do not have detailed descriptive information. The Board will give less weight to the comparables that do not have descriptive information. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story stucco dwellings that range in age from 79 to 88 years old. The dwellings range in size from 5,754 to 7,605 square feet of living area. Three comparables have a partial basement of which one basement is finished with a recreation room. One comparable has a full basement finished with a recreation room. Two comparables have central air conditioning. Two comparables have four fireplaces, one comparable has three fireplaces, one comparable has a single fireplace. One comparable has a 3-car garage and one comparable has a 2-car garage. These properties have improvement assessments ranging from $37.13 to $39.12 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the descriptive comparables submitted by both parties were similar to the subject in style, features and/or age. These comparables had improvement assessments that ranged from $28.85 to $39.12 per square foot of living area. The subject's improvement assessment of $37.00 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
