FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Gail Prauss
DOCKET NO.: 07-20254.001-R-1
PARCEL NO.: 15-12-311-012-0000

The parties of record before the Property Tax Appeal Board are Gail Prauss, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 7,896
IMPR.:	$ 30,280
TOTAL:	$ 38,176

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half-story dwelling of masonry construction containing 1412 square feet of living area. The dwelling is 75 years old. Features of the home include a full, unfinished basement, a fireplace and a two and one-half-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame, masonry or frame and masonry dwellings that range in age from 43 to 97 years old. The comparable dwellings range in size from 1235 to 1733 square feet of living area. Three have full basements, one of which is finished, and one has a partial basement. One has central air conditioning, and all lack fireplaces. The appellant did not include the size of any garages the comparables may have. The comparables have

improvement assessments ranging from $15.64 to $17.21 per square foot of living area. The subject's improvement assessment is $21.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half-story masonry dwellings that range in age from 56 to 87 years old. The dwellings range in size from 1118 to 1449 square feet of living area. Features include full basements, one of which is finished. Two have central air conditioning, one has a fireplace, and three have one-car or two-car garages. These properties have improvement assessments ranging from $21.83 to $25.48 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because they are of a different design or different exterior construction than he subject. The Board finds the comparables submitted by the board of review were generally similar to the subject, but three of them had at least one characteristic inferior to the subject and one characteristic superior to the subject. These comparables had improvement assessments that ranged from $21.83 to $25.48 per square foot of living area. The subject's improvement assessment of $21.44 per square foot of living area is lower than the range established by these comparables and also is lower than the $25.10 per square foot assessment of the board of

review's comparable #2, which has no fireplace and a smaller garage than the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
