FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Martha Fluharty
DOCKET NO.: 07-20294.001-R-1
PARCEL NO.: 16-07-413-003-0000

The parties of record before the Property Tax Appeal Board are Martha Fluharty, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,400
IMPR.:	$ 37,572
TOTAL:	$ 45,972

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction containing 1914 square feet of living area. The dwelling is 112 years old. Features of the home include central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or stucco dwellings that range in age from 88 to 127 years old. The comparable dwellings range in size from 1890 to 2148 square feet of living area. Three have full basements, one of which is finished. Two have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from $7.69 to $16.85 per square foot of living area. The subject's improvement assessment is $19.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame dwellings that range in age from 93 to 112 years old. The dwellings range in size from 2002 to 2162 square feet of living area. Features include full, unfinished basements and one and one-half-car or two-car garages. One has a fireplace. These properties have improvement assessments ranging from $20.04 to $21.32 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #2 and #4 should be given reduced weight in the Board's analysis because they were of a different exterior construction than the subject. The Board finds the remaining six comparables submitted by the parties were generally similar to the subject, but all lacked central air conditioning enjoyed by the subject and all but one had full, unfinished basements the subject lacked. These comparables had improvement assessments that ranged from $7.69 to $21.32 per square foot of living area. The subject's improvement assessment of $19.63 per square foot of living area is within the range established by the most similar comparables and is lower than the $20.04 to $21.32 per square foot range of the board of review's comparables all of which lacked central air conditioning. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
