FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Philip Stephens
DOCKET NO.: 08-23203.001-R-1
PARCEL NO.: 11-19-208-011-0000

The parties of record before the Property Tax Appeal Board are Philip Stephens, the appellant, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$7,690
IMPR.:	$54,367
TOTAL:	$62,057

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame construction containing 2,230 square feet of living area. The dwelling was built in 1896 and is 112 years old. Features of the home include a full basement, a fireplace and a 1-car garage[1].

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story frame dwellings that range in age from 108 to 124 years old. The comparable dwellings range in size from 2,236 to 3,480 square feet of living area. All comparables feature full finished basements and 2, 3 or 4-car garages[2]. Three have fireplaces and two comparables have central air conditioning. The comparables have improvement assessments ranging from $16.66 to $18.77 per square foot of living area. The subject's improvement assessment is $24.38 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

[1] The appellant claims part of the basement is finished. The board of review claims the basement is unfinished.
[2] The appellant listed the square footage of the garages rather than number of cars (Comparable #1 - 917 square feet, comparable #2 - 460 square feet, comparable #3 - 650 square feet, and comparable #4 - 450 square feet.)

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story frame dwellings that range in age from 114 to 129 years old. The dwellings range in size from 2,242 to 2,702 square feet of living area. All comparables feature full unfinished basements. Two comparables have fireplaces and two have 1-car garages. These properties have improvement assessments ranging from $24.75 to $27.60 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #2 and #4 submitted by the appellant and comparables #2 and #3 submitted by the board of review differed significantly in size from the subject. Therefore, these four comparables received less weight in the Board's analysis. The Board finds comparables #1 and #3 submitted by the appellant and comparables #1 and #4 submitted by the board of review were most similar to the subject in size, style, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $18.23 to $25.21 per square foot of living area. The subject's improvement assessment of $24.38 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
