FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Abner Cunningham
DOCKET NO.: 07-20449.001-R-1
PARCEL NO.: 10-36-223-018-0000

The parties of record before the Property Tax Appeal Board are Abner Cunningham, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$7,996
IMPR.:	$19,721
TOTAL:	$27,717

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,214 square foot parcel of land improved with an 86-year old, two-story, frame, single-family dwelling which is owner-occupied. The improvement contains 1,152 square feet of living area, one full bath, a fireplace, and a full unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of three properties suggested as comparable. The properties are located within four blocks of the subject. The properties are masonry, single-family dwellings. They range: in bathrooms from one to two full baths; in age from 82 to 88 years; in size from 1,718 to 2,196 square feet of living area; and in improvement assessment from $11.02 to $15.58 per square foot of living area. The subject's improvement assessment is $17.12 per square foot. The properties also contain: two full unfinished basements and one car garage area for each property. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of $19,721 or $17.12 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within one quarter mile of the subject. The properties are improved with two-story, frame, single-family dwellings. They range: in age from 81 to 89 years; in size from 1,082 to 1,600 square feet of living area; and in bathrooms from one full to one and one half baths. The properties also include partial or full basements, two finished with a formal recreation room and two unfinished, air conditioning for one property, one fireplace for two properties, and garage area for three properties. The properties have improvement assessments ranging from $18.37 to $23.15 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of seven properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1, #3 and #4 most similar to the subject in improvement size, design, proximity, exterior construction, amenities and age. These comparables ranged in improvement assessments from $20.63 to $23.15 per square foot. The subject's improvement assessment at $17.12 per square foot is below the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
