FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Peter McCarthy
DOCKET NO.: 07-21576.001-R-1
PARCEL NO.: 05-19-318-002-0000

The parties of record before the Property Tax Appeal Board are Peter McCarthy, the appellant(s), by attorney Julie Realmuto, of McCarthy Duffy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 9,504
IMPR.:	$ 35,719
TOTAL:	$ 45,223

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half-story dwelling of frame construction containing 1856 square feet of living area. The dwelling is 53 years old. Features of the home include fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted basic assessment information on seven properties but provided sufficiently detailed property characteristics information on only four comparable properties. They were described as one-story or one and one-half-story frame or frame and masonry dwellings that range in age from 57 to 70 years old. The comparable dwellings range in size from 1192 to 1418 square feet of living area. Three have partial basements, and two have fireplaces. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from $21.73 to $22.57 per square foot of living area. The appellant indicated the subject is a one-story frame dwelling with a full, unfinished basement and no fireplace. The

appellant also indicated the subject has 1197 square feet of living area and an improvement assessment of $29.84 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of one and one-half-story frame dwellings that range in age from 58 to 106 years old. The dwellings range in size from 1821 to 1844 square feet of living area. Features include full or partial, unfinished basements and one and one-half or two-car garages. One has a fireplace. These properties have improvement assessments ranging from $20.50 to $21.37 per square foot of living area. The board of review indicated the subject is a one and one-half-story frame dwelling with a fireplace and a two-car garage. The board of review also indicated the subject has 1856 square feet of living area and an improvement assessment of $19.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Based on the property characteristics printout sheets filed as a part of the board of review's evidence, the Board finds the subject is a one and one-half-story frame dwelling with a fireplace and a two-car garage. The Board also finds the subject has 1856 square feet of living area and an improvement assessment of $19.25 per square foot of living area.

The Board finds the appellant's comparables should be given reduced weight in the Board's analysis because they differed

from the subject in design, exterior construction and/or size. The Board finds the board of review's comparable #3 should be given less weight because it was much older than the subject. The Board finds the board of review's remaining two comparables were most similar to the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $20.72 and $21.37 per square foot of living area. The subject's improvement assessment of $19.25 per square foot of living area is lower than those of the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
