FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Mike Burke
DOCKET NO.: 07-22635.001-R-1
PARCEL NO.: 05-33-107-008-0000

The parties of record before the Property Tax Appeal Board are Mike Burke, the appellant, by attorney Timothy C. Jacobs of Gary H. Smith PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 23,561
IMPR.:	$ 65,247
TOTAL:	$ 88,808

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,072 square feet of living area. The dwelling is 80 years old and is in deluxe condition. Features of the home include a full, unfinished basement, central air conditioning, and a fireplace.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eleven comparable properties described as two-story dwellings that range in age from 65 to 115 years old. One of the comparables is located on the same block as the subject, and the others are located from one to three blocks from the subject. Six dwellings have frame exterior construction; three have masonry; one has frame and masonry; and one has stucco. The comparable dwellings range in size from 1,668 to 2,167 square feet of living area. Ten comparables have unfinished basements, either full or partial, and one has a partial, finished basement. Each dwelling has a garage; six have fireplaces; and two have central air conditioning. The comparables have improvement assessments ranging from $25.99 to $30.14 per square foot of living area. The subject's improvement assessment is $31.49 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that are in average condition. The comparables are located in the same general area as the subject. The dwellings range in age from 70 to 84 years old, and they range in size from 1,666 to 2,164 square feet of living area. Three comparables have full, unfinished basements, and one has a full, finished basement. Each dwelling has one or three fireplaces; one has central air conditioning; and three have a garage. These properties have improvement assessments ranging from $31.22 to $35.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is/is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has/has not met this burden.

Both parties presented assessment data on a total of fifteen equity comparables. The Board finds the comparables numbered three, eight, and nine by the appellant and the comparables numbered one through three by the board of review had masonry exterior construction like the subject, and they were very similar to the subject in size. They were also generally similar to the subject in age and location. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $25.99 to $35.00 per square foot of living area. The subject's improvement assessment of $31.49 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
