**FINAL ADMINISTRATIVE DECISION**
**ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Konstanty Dembowsky
DOCKET NO.: 07-22679.001-R-1
PARCEL NO.: 09-13-318-020-0000

The parties of record before the Property Tax Appeal Board are Konstanty Dembowsky, the appellant, by attorney Timothy C. Jacobs of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

|---|---|
| **LAND:** | $ 8,400 |
| **IMPR.:** | $ 33,310 |
| **TOTAL:** | $ 41,710 |

Subject only to the State multiplier as applicable.

## ANALYSIS

The subject property is improved with a multi-level dwelling of frame and masonry construction containing 1,251 square feet of living area. The dwelling is 49 years old. Features of the home include a partial, finished basement, central air conditioning, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on eleven comparable properties described as multi-level frame, masonry, or frame and masonry dwellings that range in age from 40 to 50 years old. Three of the appellant's comparables were located in the same block as the subject, and the others are within three blocks of the subject. The comparable dwellings range in size from 1,233 to 1,740 square feet of living area. Each comparable has a partial, finished basement and a garage, and eight have central air conditioning. The comparables have improvement assessments ranging from $21.03 to $23.67 per square foot of living area. The subject's improvement assessment is $26.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of multi-level frame and masonry dwellings that are all located in the same block as the subject. The dwellings are either 44 or 48 years old, and they contain either 1,188 or 1,197 square feet of living area. Each comparable has a partial, finished basement, central air conditioning, and a garage. These properties have improvement assessments ranging from $27.31 to $27.68 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of fifteen equity comparables. The appellant's comparables numbered one, two, six, and seven, and the comparables submitted by the board of review were most similar to the subject in size, style, features, age, and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $22.62 to $27.68 per square foot of living area. The subject's improvement assessment of $26.63 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
