FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Christine Noe
DOCKET NO.: 07-22850.001-R-1
PARCEL NO.: 11-31-214-005-0000

The parties of record before the Property Tax Appeal Board are Christine Noe, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,874
IMPR.:	$ 34,476
TOTAL:	$ 43,350

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,759 square feet of living area. The dwelling is 60 years old, and it has a full, finished basement, a fireplace, and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one and one-half story frame dwellings that range in age from 93 to 117 years old. The comparable dwellings range in size from 1,110 to 1,613 square feet of living area. One comparable has a garage and a fireplace, but the appellant did not provide any information on the comparables' foundations. The comparables have improvement assessments ranging from $10.66 to $15.25 per square foot of living area. The subject's improvement assessment is $19.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story

masonry dwellings that range in age from 50 to 87 years old. The dwellings range in size from 1,256 to 1,684 square feet of living area. Two comparables have full, unfinished basements, and two have finished basements, either full or partial. Each comparable has a garage; three have a fireplace; and one has central air conditioning. These properties have improvement assessments ranging from $21.85 to $22.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed from the subject in style, age, and exterior construction, and three of the appellant's comparables were much smaller than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The comparables submitted by the board of review were very similar to the subject in style and exterior construction, but three of the comparables were much older and smaller than the subject. As a result, the comparables numbered two through four by the board of review also received reduced weight. The Board finds the comparable numbered one by the board of review was very similar to the subject in size, style, exterior construction, and basement treatment. It was also generally similar to the subject in age. Due to its similarities to the subject, this comparable received the most weight in the Board's analysis. It had an improvement assessment of $22.93 per square foot of living area. The subject's improvement assessment of $19.60 per square foot of living area is supported by this assessment. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
