FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: David Gilbert
DOCKET NO.: 07-23874.001-R-1
PARCEL NO.: 14-20-314-028-0000

The parties of record before the Property Tax Appeal Board are David Gilbert, the appellant, by attorney Mitchell L. Klein of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$16,272
IMPR.:	$78,300
TOTAL:	$94,572

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story, two unit, multi-family apartment building of masonry construction containing 2,610 square feet of living area. The dwelling is 98 years old. Features of the home include a full unfinished basement. The property is classified as a Class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story, multi-family, masonry buildings that range in age from 89 to 103 years old. The comparable buildings range in size from 2,626 to 2,800 square feet of living area. Each comparable has a full unfinished basement. The comparables have improvement assessments ranging from $22.51 to $25.46 per square foot of living area. The subject's improvement assessment is $35.64 per square foot of living area[1]. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

[1] Appellant included the value of the Home Improvement exemption to arrive at $42.01 improvement assessment per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story single-family, masonry buildings that range in age from 97 to 108 years old. The buildings range in size from 2,754 to 3,122 square feet of living area. Three comparables have a full basement of which one basement is finished with a recreation room. Two comparables have central air conditioning. Three comparables have a fireplace and a 2-car garage. These properties have improvement assessments ranging from $27.13 to $33.99 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant argued the board of reviews' grid sheet does not depict the actual assessed valuation including the Home Improvement exemption. All seven comparables have lower assessed valuations compared to the subject. The appellant believes comparable #1 is most similar to the subject in terms of age, size and location. The Assessor of Cook County has valued the subject property at $31.61 per square foot in 2008.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board finds comparable #1 submitted by the appellant and comparables #1 and #3 submitted by the board of review were most similar to the subject in location, size, basement area and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $24.32 to $30.75 per square foot of living area. The subject's improvement assessment of $35.64 per square foot of living area is above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
