FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Shellie Kaiser
DOCKET NO.: 07-26410.001-R-1
PARCEL NO.: 14-19-123-017-0000

The parties of record before the Property Tax Appeal Board are Shellie Kaiser, the appellant, by attorney James E. Doherty, of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 13,364
IMPR.:	$ 58,864
TOTAL:	$ 72,228

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 4,125 square foot parcel improved with a 95-year-old, one and one-half story, single-family dwelling of masonry construction containing 1,773 square feet of living area and located in Lake View Township, Cook County. Features of the residence include one bathroom, a full-finished basement, central air-conditioning and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a three-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story or one and one-half story, single-family dwellings of

frame or masonry construction with the same neighborhood code as the subject. One of the comparables is located on the same street and within one block of the subject. The improvements range in size from 1,480 to 1,762 square feet of living area and range in age from 94 to 108 years old. The comparables contain one, one and one-half or two full bathrooms and a full-finished or unfinished basement. Three comparables have central air-conditioning as well as a one-car or two-car detached garage. The improvement assessments range from $26.37 to $29.23 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $72,228. The subject's improvement assessment is $58,864 or $33.20 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,494 to 1,720 square feet of living area and range in age from 79 to 93 years old. The comparables contain one, one and one-half or two full bathrooms, a full-unfinished basement and a two-car garage. The improvement assessments range from $34.21 to $39.39 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable one and the board of review's comparables one and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from $26.37 to $36.93 per square foot of living area. The subject's per square foot improvement assessment of $33.20 falls within the range established by these properties. The Board finds the five remaining comparables less similar to the subject in improvement size and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the

Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
