FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Moshe & Chevie Davis
DOCKET NO.: 07-26945.001-R-1
PARCEL NO.: 13-02-205-043-0000

The parties of record before the Property Tax Appeal Board are Moshe & Chevie Davis, the appellants, by attorney Glenn S. Guttman, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$7,539
IMPR.:	$38,701
TOTAL:	$46,240

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of frame and masonry construction containing 1,937 square feet of living area. The dwelling is 53 years old. Features of the home include a full, unfinished basement, central air conditioning and a fireplace.

The appellants' appeal is based on unequal treatment in the assessment process[1]. The appellants submitted information on six comparable properties described as 2-story frame or masonry dwellings that range in age from 52 to 58 years old. The comparable dwellings range in size from 1,560 to 1,911 square feet of living area. Five comparables feature full basements, two of which are finished, and one is on a slab foundation. Four of the comparables feature central air conditioning, one has a fireplace, and three have 1½ or 2-car garages. The comparables have improvement assessments ranging from $16.23 to $18.95 per square foot of living area. The subject's improvement assessment

[1] Although the appellant states the reason for appeal is comparable sales, this case is being treated as an assessment equity argument due to lack of sales data in the evidence submitted by both the appellant and the board of review.

is $19.98 per square foot of living area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story frame and masonry dwellings that range in age from 54 to 57 years old. The dwellings range in size from 1,704 to 1,870 square feet of living area. All comparables feature full or partial basements, one of which is finished. One has a fireplace and three have central air conditioning and 1 or 1½-car garages. These properties have improvement assessments ranging from $9.28 to $20.05 per square foot of living area. The board of review also disclosed that comparable #3 was purchased in August 2007 for $446,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

Comparables #1, #2, #3, #4 and #5 submitted by the appellant featured exterior construction that differed from the subject, and appellant's comparable #6 is much smaller than the subject. Therefore, these six comparables received less weight in the Board's analysis. The Board finds the comparables submitted by the board of review were most similar to the subject in size, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $9.28 to $20.05 per square foot of living area. The subject's improvement assessment of $19.98 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
