FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Ron Arder
DOCKET NO.: 07-27385.001-R-1
PARCEL NO.: 01-22-105-012-0000

The parties of record before the Property Tax Appeal Board are Ron Arder, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$30,046
IMPR.:	$138,436
TOTAL:	$168,482

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 62,596 square foot parcel of land improved with a four-year old, two-story, masonry, single-family dwelling. The improvement contains 6,753 square feet of living area, and five and one-half baths. Additional features include air conditioning, five fireplaces, a full basement finished with a formal recreation room, and a four-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information, as well as black and white photographs on a total of six properties suggested as comparable. The properties are located within the subject's neighborhood. The properties are improved with two-story, masonry or frame and masonry, single-family dwellings. The properties range in age from 8 to 18 years and contain from 6,222 to 6,946 square feet of living area with three and one-half to five full and two half baths. The improvement assessments range from $9.91 to $15.76 per square foot of living area. The subject's

improvement assessment is $20.50 per square foot of living area. The properties also contain: air conditioning, two fireplaces, full or partial, finished or unfinished basements, and four-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of $138,436 or $20.50 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood. The properties are improved with two-story, masonry, single-family dwellings. The properties range in age from 4 to 13 years and in size from 5,926 to 6,659 square feet of living area and have three full and two half baths to five full and two half baths. The properties also include partial or full basements finished with a formal recreation room, air conditioning, two to four fireplaces, and four car garage areas. The properties have improvement assessments ranging from $20.32 to $22.88 per square foot of living area.

In addition, the board's analysis indicated that the subject as well properties #3 and #4 were accorded a deluxe condition ranking by the assessor's office while properties #1 and #2 were accorded an average condition without further explanation. As a result of its analysis, the board requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of ten properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #2, #4, #5 and #6, and the board of review's comparables #1, #2 and #3 most similar to the subject in improvement size, design, location, and exterior construction. These comparables ranged in improvement assessments from $9.91 to $22.88 per square foot. The subject's improvement assessment of $20.50 per square foot of living area is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated

that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
