FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Linda Becker
DOCKET NO.: 07-29287.001-R-1
PARCEL NO.: 04-26-401-073-0000

The parties of record before the Property Tax Appeal Board are Linda Becker, the appellant, by attorney Christopher G. Walsh, Jr. in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 18,493
IMPR.:	$ 124,068
TOTAL:	$ 142,561

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story, single-family dwelling of frame and masonry construction containing 4,431 square feet of living area. The dwelling is seven years old. Features of the home include a full, unfinished basement, central air conditioning, three fireplaces, and a three and one-half car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame, masonry, or frame and masonry dwellings that range in age from nine to twenty-one years old. All of the comparables have been assigned the same neighborhood code as the subject property, and two are located on the same tax block as the subject. The comparable dwellings range in size from 4,158 to 4,708 square feet of living area. Each comparable has central air conditioning, one or two fireplaces, and an attached garage. One dwelling has a full, finished basement, and three have unfinished basements, either full or partial. The comparables have improvement assessments ranging from $19.89 to $21.09 per square foot of living area. The subject's improvement assessment is $28.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story stucco or masonry dwellings that range in age from one to ten years old. The comparable properties have been assigned the same neighborhood code as the subject property, and two comparables are located on the same block as the subject. The dwellings range in size from 3,842 to 4,145 square feet of living area. Two dwellings have full, finished basements, and one has a full, unfinished basement. Each comparable has central air conditioning, two or four fireplaces, and an attached garage. These properties have improvement assessments ranging from $26.80 to $31.44 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that three of the appellant's comparables were significantly older than the subject and, as a result, received reduced weight in the Board's analysis. The appellant's comparable numbered three and the comparables submitted by the board of review were most similar to the subject in age, and they were also very similar in location and most features. They were also generally similar in exterior construction, style, and size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $21.00 to $31.44 per square foot of living area. The subject's improvement assessment of $28.00 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
