FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Shirley Antonucci
DOCKET NO.: 07-29801.001-R-1
PARCEL NO.: 03-32-325-010-0000

The parties of record before the Property Tax Appeal Board are Shirley Antonucci, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$23,200
IMPR.:	$74,480
TOTAL:	$101,680

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 20,000 square foot parcel of land improved with a three-year old, two-story, frame and masonry, single-family dwelling. The improvement contains 5,328 square feet of living area, and four full and two-half baths. Additional features include air conditioning, a full unfinished basement, and a four-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of six properties suggested as comparable. The properties are located from 1.54 miles to 2.54 miles from the subject. The properties are improved with two-story, masonry or frame and masonry, single-family dwellings. The properties range in age from 3 to 12 years; contain from 5,066 to 6,261 square feet of living area and have from two full and two half baths to three and one half baths. The improvement assessments range from $10.01 to $11.99 per square foot of living area. The subject's improvement assessment is $14.73 per square

foot of living area. The properties also contain: air conditioning, one or two fireplaces, full or partial unfinished basements, and three or four-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of $78,480 or $14.73 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within the subject's neighborhood, two of which are within one quarter mile of the subject. The properties are improved with two-story, frame and masonry, single-family dwellings. The properties range: in age from 1 to 59 years; in size from 2,837 to 5,755 square feet of living area and have from three baths to four full and two half baths. The properties also include full unfinished basements for three properties, air conditioning, one to five fireplaces, and and two to four car garage areas. The properties have improvement assessments ranging from $0.58 to $19.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties presented a total of ten properties suggested as comparable to the subject. The PTAB finds the board of review's comparables #1 #2 and #3 most similar to the subject in improvement size, design, location, exterior construction, amenities and age. These comparables ranged in improvement assessments from $0.58 to $19.69 per square foot. The subject's improvement assessment of $14.73 per square foot of living area is within the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in property location and improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has not demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is supported and a reduction in the improvement assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
