PARCEL NO.: 11-07-106-013-0000

The parties of record before the Property Tax Appeal Board are Mark Sangin, the appellant, by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$5,220
IMPR.:	$40,433
TOTAL:	$45,653

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of stucco construction containing 1,380 square feet of living area. The dwelling is 92 years old. Features of the home include a full unfinished basement and a fireplace. The property has a 2,250 square foot site and is located in Evanston, Evanston Township, Cook County.

The appellant's appeal is based on assessment equity and contention of law.[1] The appellant submitted information on three comparable properties described as class 2-05 dwellings (2 or more stories) of frame, masonry or stucco construction. They range in size from 1,951 to 2,139 square feet of living area and range in age from 68 to 85 years. Each comparable has the same neighborhood code as the subject property. Features of the comparables include full or partial basements, one with finished area, 1 or 2 fireplaces and 1-car garages. One comparable features central air conditioning. The comparables have improvement assessments ranging from $45,648 to $54,459 or from $23.40 to $25.46 per square foot of living area. The subject's improvement assessment is $40,433 or $29.30 per square foot of living area. Based on this evidence, the appellant requested a

reduction in the subject's improvement assessment to $33,396 or $24.20 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with 2-story dwellings of stucco construction that range in size from 1,242 to 1,816 square feet of living area. The dwellings range in age from 80 to 87 years. Each has the same neighborhood code as the subject property. Features of the comparables include full unfinished basements and fireplaces. Two comparables feature 1 or 2-car garages. These properties have improvement assessments ranging from $39,177 to $55,884 or from $30.00 to $32.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the board of review comparables are most similar to the subject in size, location, style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $30.00 to $32.46 per square foot of living area. The subject's improvement assessment of $29.30 per square foot of living area is below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
