FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Margaret Ahtes
DOCKET NO.: 08-21643.001-R-1
PARCEL NO.: 05-18-228-031-0000

The parties of record before the Property Tax Appeal Board are Margaret Ahtes, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$24,002
IMPR.:	$92,717
TOTAL:	$116,719

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,422 square feet of living area. The dwelling is 69 years old. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 1-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story and two-story masonry dwellings that range in age from 47 to 89 years old. The comparable dwellings range in size from 2,151 to 2,642 square feet of living area. Two comparables have partial finished basements, central air conditioning and a fireplace. One comparable has a full finished basement and a fireplace. One comparable has an unfinished basement and a fireplace. The appellant did not include any data concerning garages for the comparables. However, photographs depict attached garages for two comparables. The comparables have improvement assessments ranging from $3.69[1] to $26.46 per square foot of living area. The subject's improvement assessment is $38.28 per square foot of

[1] Appellant's comparable #1 improvement assessment is substantially low.

living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 79 to 87 years old. The dwellings range in size from 2,264 to 2,826 square feet of living area. Three comparables have full basements, one of these is finished with a recreation room. Two comparables have central air conditioning. Two comparables have a single fireplace and one comparable has 2 fireplaces. The remaining comparable has a partial unfinished basement and a 2-car garage. These properties have improvement assessments ranging from $35.82 to $41.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in style and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $35.82 to $41.25 per square foot of living area. The subject's improvement assessment of $38.28 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
