FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Helene DeDeoglou
DOCKET NO.: 08-22071.001-R-1
PARCEL NO.: 09-16-202-047-0000

The parties of record before the Property Tax Appeal Board are Helene DeDeoglou, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 21,344
IMPR.:	$ 47,757
TOTAL:	$ 69,101

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame construction. The dwelling is 89 years old and contains 3,216 square feet of living area. Features of the home include a partial unfinished basement, central air conditioning, and a two-car garage. The subject property is located in Des Plaines, Maine Township, Cook County.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four suggested comparable properties described as dwellings of frame, masonry, or frame and masonry construction. The appellant did not provide information on the comparables' story height and foundations. The comparable properties have the same assigned neighborhood code as the subject. The comparable dwellings are from 66 to 95 years old and contain from 2,256 to 3,035 square feet of living area. Each comparable has a garage and a fireplace, and two comparables have central air conditioning. The comparables have improvement assessments ranging from $35,188 to $44,726 or from $14.21 to $15.60 per square foot of living area. The subject's improvement assessment is $60,464 or $18.80 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to $47,757 or $14.85 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of $81,809 was disclosed. The board of review presented descriptions and assessment information on three suggested comparable properties consisting of two-story dwellings of frame or frame and masonry construction. The board of review's comparable #1 is the same property as the appellant's comparable #1. The comparable properties have the same assigned neighborhood code as the subject. The dwellings are from 64 to 95 years old and contain from 2,384 to 3,632 square feet of living area. Each comparable has a garage and an unfinished basement, either full or partial. Two comparables have a fireplace. These properties have improvement assessments ranging from $35,398 to $52,115 or from $14.21 to $14.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

Both parties presented assessment data on a total of six suggested comparables. The board of review's comparable #1 is the same property as the appellant's comparable #1. The appellant's comparables #2 and #4 and the board of review comparable #4 were considerably smaller than the subject and received reduced weight in the Board's analysis. The Board finds the appellant's comparable #1 was most similar in age and was very similar in size; the appellant's comparable #3 was most similar to the subject in size and was relatively similar in age; and board of review comparable #3 had a partial unfinished basement like the subject and was relatively similar in age and size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These three comparables had improvement assessments that ranged from $35,188 to $52,115 or from $14.21 to $15.60 per square foot of living area. The subject's improvement assessment of $60,464 or $18.80 per square foot of living area falls above the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
