APPELLANT: Daniel Koziol
DOCKET NO.: 08-22119.001-R-1
PARCEL NO.: 02-22-108-018-0000

The parties of record before the Property Tax Appeal Board are Daniel Koziol, the appellant, by attorney Joseph G. Kusper, of Storino Ramello & Durkin in Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 8,481
IMPR.:	$ 26,752
TOTAL:	$ 35,233

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 11,160 square foot parcel improved with a 45-year-old, multi-level, single-family dwelling of masonry construction containing 1,116 square feet of living area and located in Palatine Township, Cook County. Features of the residence include one and one-half bathroom, a full-finished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story or two-story, single-family dwellings of frame construction located within several blocks of the subject. The

improvements range in size from 1,940 to 2,588 square feet of living area and range in age from 21 to 53 years old. The comparables contain from one to two and one-half bathrooms, a finished or unfinished basement and a one-car or two-car attached garage. Two comparables have central air-conditioning and one comparable has a fireplace. The improvement assessments range from $9.17 to $12.27 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $35,233. The subject's improvement assessment is $26,752 or $23.97 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,072 to 1,146 square feet of living area and range in age from 36 to 47 years old. The comparables contain one, one and one-half or two full bathrooms, a partial-finished basement and a one-car or two-car garage. The improvement assessments range from $23.69 to $23.90 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from $23.69 to $23.90 per square foot of living area. The subject's per square foot improvement assessment of $23.97, although pennies above the range established, indicates the subject is treated equitably when compared to similar properties. The Board finds the appellant's comparables less similar to the subject in improvement size, design and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
