FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Jerome Burke
DOCKET NO.: 08-23767.001-R-1
PARCEL NO.: 05-21-131-001-0000

The parties of record before the Property Tax Appeal Board are Jerome Burke, the appellant, by attorney Sonja R. Johnson, of Much Shelist in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$60,829
IMPR.:	$192,280
TOTAL:	$253,109

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 4,807 square feet of living area. The dwelling is 7 years old. Features of the home include a full, unfinished basement, central air conditioning, 2 fireplaces and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 2-story frame or masonry dwellings that range in age from 3 to 37 years old. The comparable dwellings range in size from 4,031 to 4,969 square feet of living area. All comparables feature full or partial basements, one of which is finished. All have central air conditioning and fireplaces. Three have 2-car garages. The comparables have improvement assessments ranging from $26.58 to $33.73 per square foot of living area. The subject's improvement assessment is $40.00 per square foot of living area. The appellant also disclosed that the subject was purchased in March 2004 for $1,030,000 but did not indicate if this was an "arms length" transaction. The board of review did not report this sale. The appellant also disclosed that comparable #1 was purchased in June 2005 for $1,400,000 and comparable #4 was purchased in June 2005 for $1,890,000. Based on this evidence,

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2-story masonry dwellings that range in age from 4 to 16 years old. The dwellings range in size from 3,865 to 4,443 square feet of living area. All comparables feature full basements, three of which are finished. All have central air conditioning, fireplaces and 2 or 3-car garages. These properties have improvement assessments ranging from $40.49 to $47.29 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The appellant, in rebuttal, states that the board of review's comparables are smaller than the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Comparables #1 and #2 submitted by the appellant are much older than the subject, and appellant's comparable #3 is frame construction instead of masonry. The board of review's comparables #1, #2 and #4 are smaller than the subject. Therefore, these six comparables received less weight in the Board's analysis. The Board finds comparable #4 submitted by the appellant and comparable #3 submitted by the board of review were most similar to the subject in size, style, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of $33.73 and $42.69 per square foot of living area respectively. The subject's improvement assessment of $40.00 per square foot of living area is between these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
