FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Ian Schwartz
DOCKET NO.: 08-23883.001-R-1
PARCEL NO.: 14-32-221-026-0000

The parties of record before the Property Tax Appeal Board are Ian Schwartz, the appellant(s), by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 20,708
IMPR.:	$ 106,715
TOTAL:	$ 127,423

Subject only to the State multiplier as applicable.

ANALYSIS

The subject has 3,100 square feet of land, which is improved with a 118 year old, three-story, masonry single-family dwelling. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the subject's improvement as the basis of this appeal.

The appellant and the board of review submitted disparate information regarding the subject's improvement size and dwelling type. The board of review's evidence indicates the subject is a single-family dwelling that contains 4,320 square feet of living area, which equates to an improvement assessment of $24.70 per square foot of living area. The appellant's evidence indicates the subject is a multi-family dwelling that contains 3,973 square feet of living area which equates to an improvement assessment of $26.86 per square foot of living area.

In support of the equity argument, the appellant submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as masonry, multi-family dwellings. Additionally, the comparables range: in age from 121 to 128 years; in size from 3,234 to 3,933 square feet of living area; and in improvement assessment from $20.82 to $22.11 per square foot of living area.

The comparables also have various amenities. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The Cook County Board of Review submitted its "Board of Review-Notes on Appeal," wherein the subject's improvement assessment of $106,715 was disclosed. In support of the subject's assessment, the board of review submitted descriptive and assessment information for four properties suggested as comparable to the subject. The comparables are described as three-story, masonry, single-family dwellings. Additionally, the comparables range: in age from 113 to 118 years; in size from 3,540 to 4,539 square feet of living area; and in improvement assessments from $34.21 to $41.54 per square foot of living area. The comparables also have several amenities. The board of review also submitted a print out that indicates a $250,000 permit for remodeling was issued in November 2007. Based on this evidence, the board of review requested confirmation of the subject's improvement assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of this appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Walsh v. Prop. Tax Appeal Bd., 181 Ill. 2d 228, 234 (1998) (citing Kankakee Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 131 Ill. 2d 1 (1989)); 86 Ill. Admin. Code § 1910.63(e). To succeed in an appeal based on lack of uniformity, the appellant must submit documentation "showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d 139, 145 (1st Dist. 2010); 86 Ill Admin. Code § 1910.65(b). "[T]he critical consideration is not the number of allegedly similar properties, but whether they are in fact 'comparable' to the subject property." Cook Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 403 Ill. App. 3d at 145 (citing DuPage Cnty. Bd. of Review v. Prop. Tax Appeal Bd., 284 Ill. App. 3d 649, 654-55 (2d Dist. 1996)). After an analysis of the assessment data, the Board finds that the appellant has not met this burden.

The Board notes that the appellant did not provide any information to refute the board of review's evidence that the subject contains 4,320 square feet of living area. The appellant did not provide any information regarding the subject's use as a multi-family dwelling. The appellant did not provide any information regarding the subject's November 2007 permit. Therefore, the Board finds that the subject is a single-family dwelling that contains 4,320 square feet of living area.

The Board finds all the comparables submitted by the board of review were most similar to the subject in location, size, exterior construction, use, and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from $34.21 to $41.54 per square foot of living area. The subject's improvement assessment of $24.70 per square foot of living area is below the range established by the most similar comparables.

Therefore, after considering adjustments and differences in both parties' comparables when compared to the subject, the Board finds that the subject's improvement assessment is equitable, and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
